Proposal

Synergizing best practice in pharmacy education and science

I. INTRODUCTION

About APPEN

The Asia Pacific Pharmacy Education Network (APPEN) is a member-driven society of schools of pharmacy within the Asia Pacific region. The network was founded to enhance education and research in pharmacy and pharmaceuticals by establishing mutual and beneficial interrelationship among the society members. The member of the network stretches in a number of countries such as Indonesia (Universitas Airlangga, Universitas Gadjah Mada, Institut Teknologi Bandung), Malaysia (Management & Science University, Universiti Sains Malaysia), Thailand (Chulalongkorn University and Burapha University), Philippine (University of the Philippines, University of Santo Tomas, University of the Immaculate Conception) and Japan (Josai University and Josai International University). In 2019, the network aims to expand its collaboration by inviting Mahidol University Thailand and Universiti Brunei Darussalam into the team.

Overview of the International Joint Symposium

The 2019 international joint symposium is one of the initiatives of the network to achieve its objective. The current event is joining two international conferences which 'marks the second joint symposium held under the network initiatives. The first joint symposium was held in Japan and organized by Josai University and Josai International University in 2018. The current international joint symposium is conducted in Surabaya Indonesia and organized by Faculty of Pharmacy Universitas Airlangga in colaboration with Halal Center of Universitas Airlangga.

Background

The changing landscape of healthcare and pharmacy, the advancement of technology and societal needs have influenced the way pharmacy is taught and practiced. It is therefore not surprising that innovation in teaching pharmacy, improving students' capabilities and managing educational institution e.g. a faculty or a school of pharmacy increasingly becomes important subject of discussion among pharmacy education stakeholders. The attempts to enhance the quality of education by schools of pharmacy is not only limited at the phase at which students learn in schools, but it spans to which students work or practice as professional. Beyond this continuum, schools of pharmacy also shoulder burden as an agent of change in terms of research excellence and social contribution. Therefore, finding the most effective and comprehensive approach is the holy grail in pharmacy education.

At the same time, development of halal pharmaceuticals and cosmetics system in tandem with growing awareness towards halal concept cannot be disregarded. The requirement of halal pharmaceuticals and cosmetics is underlined in the policy documents in a number of countries reflecting the potential and benefits of halal system. Accordingly, halal concept is indeed recognized and increasingly accepted as one of the standards in pharmacy and healthcare industries. The implementation of halal, however, is not without

problems. Highlighting the issues and seeking the win-win solutions are therefore becoming a necessity for halal industries to adapt with the current system.

Continuing the success of previous symposium, the 2019 International Joint Symposium strives towards enhancement of pharmacy education and recognition of halal pharmaceuticals and cosmetics. The current symposium offers opportunity for synergy among the network institutions and dissemination of best practice in pharmacy education and halal system recognition. The word "synergy" reflects the essence of joining forces and learning from others experience. It also highlights situation in which *no party solves all, no size fits all and neither I nor you except us*. The network which stretches across Asia Pacific is truly a great opportunity for establishing and sustaining such synergy.

Activities

The event will involve a series of plenary session, parallel panels, poster presentation and other interactive events. We are inviting a number of internationally acknowledged experts to be keynote speakers in the plenary session. Parallel planes are enacted as a venue for discussion regarding the issues in pharmacy education and halal pharmaceutical and cosmetics. Presenters in this panel sessions are selected from the network representatives. Poster session offers opportunity for sharing knowledge and experiences as well as great moment for networking. Additionally, a number of "interactive" events in form of debates, mini workshops, forum discussions and tutorials are offered during the symposium.

II. TOPICS FOR INTERNATIONAL JOINT SYMPOSIUM

Topic of the symposium : Synergizing best practice in pharmacy education and science

A. Plenary session

The symposium offers two “mixed” plenary sessions where audience can understand issues in pharmacy education and halal proportionally. Each plenary session will involve four keynote speakers representing pharmacy education and halal topics, respectively.

Topics for APPEN Plenary Sessions:

1. The development of pharmacy education and qualification
2. Standardization and accreditation in pharmacy education: from theory to action
3. Joining forces and expanding collaboration in pharmacy education
4. Pharmacy education outlook: what's next?

Topics for HPC Plenary Sessions:

1. Halal system and challenges
2. What makes halal system essential for global needs?
3. The economy and values of halal market
4. Halal industries beyond 2020

B. Panel session

The panel session presents opportunity to learn variety of topic in pharmacy education and halal pharmaceuticals and cosmetics.

APPEN Panels:

1. Interprofessional learning and leadership capability
2. Student engagement, study supports and skills advancement
3. Teaching skills and innovation in learning
4. Curriculum development and educational challenges
5. Academic organization and collaboration
6. Graduate reputation and lifelong learning in pharmacy
7. Critical view of pharmacy education: from document to action

HPC Panels:

1. HPC safety and regulatory matters
2. HPC economy: market growth and potential
3. HPC testing, technology and materials
4. Contemporary issues and challenges in HPC industry
5. HPC concept, research and product development

C. Poster presentation

The topic for poster presentation follows the topic of the symposium

D. Other modes of interactive events

A number of interactive is currently being developed by the organizing committee. Details about these events will be provided at symposium website.

IV. VENUES AND DATES

Date : 8 – 9 October 2019

Venue : Faculty of Pharmacy Airlangga University Campus C, Surabaya Indonesia

Surabaya is the second largest city in Indonesia and is famous as the "city of green and flowery parks" which decorates the city landscape within the past ten years. Surabaya recently won the 2018 Guangzhou International Award for urban innovation in the online popular city category beating a number of other popular cities across the globe. Surabaya is also known as the hub of commerce for the eastern part of Indonesia while striving to maintain the values of multiple ethnicities and culture of its citizen. This leaves a fascinating experience of a mixed modern and traditional lifestyle between the labyrinth of city lanes and corners.

The symposium will be held at the new 10 levels building of the Faculty of Pharmacy Airlangga University. The venue amplifies the energy and enthusiasm of the APPEN network and capitalizes potential benefits regarding the objectives of the symposium. The faculty is only 20 minutes from Gubeng Surabaya Station, 1 hour from Surabaya International Airport and accessible from any destinations.

The plenary talks are given in the pharmacy hall which provides 500 seats at most. Eight other rooms each of which can provide 50 seats are reserved for parallel sessions. A sufficient space for poster and demo presentations nearby the pharmacy hall are also reserved for the symposium.

V. TARGET AUDIENCES

The symposium will attract educators, researchers and leaders from domestic and international. As the symposium focuses on the depth of discussion and collaborative action among the network, quantity of participants may not be the main target. Quality, straight initiative and continuance of the expected results are indeed the main issue. Therefore, it is expected that up to 300 participants will attend the symposium.

VI. SPEAKERS

The event will feature a series of keynote speakers, panel speakers and interactive event presenters throughout the conference. Currently, there are a number of experts will be speaking of a particular topic in pharmacy education or halal pharmaceuticals and cosmetics, as the following:

Prof. Yashwant Pathak, M. Pharm, M.B.A., M.S.C.M., Ph.D. (University of South Florida, USA)

Dk. Dr. Nurolaini Pg Haji Muhd Kifli, PhD (Universiti Brunei Darussalam, Brunei)

Dr. Umi Athiyah, MS., Apt (Universitas Airlangga, Indonesia)

Prof. Rungpetch Sakulbumrungsil (Chulalongkorn University, Thailand)

Prof. Daryono Hadi Tjahjono, M.Sc., Eng., Apt. (Institut Teknologi Bandung, Indonesia)

Prof. Dr. Surakit Nathisuwan, PharmD, BCPS (Mahidol University, Thailand)

Nazrul Islam, Ph.D (Queensland University of Technology, Australia)

Assoc. Prof. Mulika Chomnawang, B.S., M.S., Ph.D.(Mahidol University, Thailand)

K.H. Muhammad Cholil Nafis (Majelis Ulama Indonesia, Indonesia)

Prof. Ir. Sukoso, M.Sc., PhD (Badan Penyelenggara Jaminan Produk Halal, Indonesia)

Prof. Dr. Eddy Yusuf (International Center for Halal Studies - Management & Science University, Malaysia)

Prof. Dr. Hiroaki Todo (Josai University, Japan)

Prof. Dr. Sugijanto, M.S., Apt. (LPPOM – Majelis Ulama Indonesia, Indonesia)

Dr. Mustofa Helmi Effendi (Halal Center Universitas Airlangga, Indonesia)

VII. PUBLICATION

The 2019 International joint symposium is a premier forum for the presentation of new advances and research results in the fields of theoretical, experimental, and applied Pharmacy education and Halal Science-Technology. The conference will bring together leading researchers, academics, scientists and leaders in the domain of interest from around Asia Pacific.

The symposium welcomes paper submission including abstract and full paper which is not published elsewhere. Topics of interest for submission include, but are not limited to:

1. Pharmacy Education and practice
 - Academic pharmacy
 - Pharmacy teaching and learning
 - Interprofessional education and collaboration
 - Social and administrative aspects in teaching and learning
 - Innovations and future of pharmacy education
 - Technology, quality and measurement in pharmacy practice
 - Policy matters
2. Science and technology in halal-related issues
 - Halal industries
 - Halal pharmaceuticals and cosmetics technology
 - The economic, social and health aspects of Halal

Accepted abstracts will be distributed at the symposium. Authors are highly encouraged to submit a full paper for publication in a number of international journals affiliated with the symposium (SCOPUS indexed and other indexing systems). The article processing charge of the journal is the responsibility of authors.

There are a number of journals which is currently in communication with the committee, some of which have committed to publish the articles from the symposium, as follows:

1. Indonesia Journal of Pharmacy
Publisher: Universitas Gadjah Mada
2. Journal of Advanced Pharmacy Education and Research
Publisher: Society of Pharmaceutical Education and Research
3. Journal of Research in Pharmacy Practice
Publisher: Wolter Kluwers

The mechanism for publishing articles is provided in the symposium website. The committee targets at least 40 articles are published from the symposium.

VII. SYMPOSIUM BUDGET ESTIMATES

The organizing committee proposed IDR 400,000,000 (Approximately USD 28,750) for funding the event. Details for financing the symposium as follows:

Description	Amount (in IDR)
EXPENDITURE

Sponsorship	100,000,000
TOTAL Income	400,000,000

IX. EXPECTED RESULTS

It is expected that participants and the network will obtain several benefits as the following:

1. Establish a network of educators, researchers and leaders who will be able to work together to devise solutions to the issues in pharmacy education and halal pharmaceuticals policies
2. Provide an opportunity for participants to present their innovations, findings, best practices, concerns and solutions with respect to the topic of the conference
3. Encourage dialogue between educators, researchers and leaders within and beyond the APPEN network
4. Highlight potential synergy and connections between member of the network

X. SPONSORSHIP OPPORTUNITIES

The committee invites organizations, companies, partners and individuals to contribute to the symposium. There are several types of sponsorship can be made for the symposium as follows:

Category I: Gold Sponsor

IDR 100,000,000 or more

Support at this level entitles the Gold Sponsor to:

- Placement of organization name and logo on cover and page 1 of the event program and final symposium reports
- Sponsor will be identified as "Gold Sponsor of the 2019 International Joint Symposium"

- Recognition of organization as sole sponsor as a specific activity or workshops as negotiated
- Sign of acknowledgement posted at event venues
- Opportunity for a senior executive to address delegates and speakers at the lunch session of the symposium
- Special mention of organization as a Gold Sponsor in all symposium press releases regarding the event
- Participation in discussions on event branding
- Opportunity to distribute appropriate organization promotional materials to all delegates as negotiated
- Public presentation at Sponsor's booth during the symposium
- Certificate of appreciation at closing ceremonies of the symposium
- Other arrangements as negotiated

Category II: Silver Sponsor

IDR 50,000,000 or more

Support at this level entitles the Silver Sponsor to:

- Placement of organization name and logo on inside cover of the event program and final symposium reports
- Recognition of organization as sole sponsor as a specific activity or workshops as negotiated
- Placement of organization logo and name on all event banners and websites
- Sign of acknowledgement posted at event venues
- Acknowledgement of sponsor at opening ceremonies
- Special mention of organization as a Silver Sponsor in all symposium press releases regarding the event
- Opportunity to distribute appropriate organization promotional materials to all delegates as negotiated
- Public presentation at Sponsor's booth during the symposium
- Certificate of appreciation at closing ceremonies of the symposium
- Other arrangements as negotiated

Category III: Bronze Sponsor

[IDR 25,000,000 or more](#)

Support at this level entitles the Bronze Sponsor to:

- Placement of organization name and logo on inside cover of the event program and final symposium reports
- Recognition of organization as sole sponsor as a specific activity or workshops as negotiated
- Sign of acknowledgement posted at event venues
- Acknowledgement of sponsor at opening ceremonies
- Special mention of organization as a Bronze Sponsor in all symposium press releases regarding the event
- Mention of appreciation at closing ceremonies of the symposium
- Other arrangements as negotiated

Category IV: Partner

[IDR 10,000,000 or more](#)

Support at this level entitles the Partner to:

- Placement of organization name and logo on back cover of the event program and final symposium reports
- Sign of acknowledgement posted at event venues
- Mention of organization as a Partner in selected symposium press releases regarding the event
