## INTRODUCTION

The Asia Pacific Pharmacy Education Network (APPEN) is a member-driven society of schools of pharmacy within the Asia Pacific region. The network was firstly founded by Management and Science University Malaysia and Josai University Japan to enhance education and research in pharmacy and pharmaceuticals by establishing mutual and beneficial interrelationship among the society members. The member of the network stretches in a number of countries such as Indonesia (Universitas Airlangga, Universitas Gadjah Mada, Institut Teknologi Bandung), Malaysia (Management & Science University, Universiti Sains Malaysia), Thailand (Chulalongkorn University and Burapha University), Philippine (University of the Philippines, University of Santo Tomas, University of the Immaculate Conception) and Japan (Josai University and Josai International University). In 2019, the network aims to expand its collaboration by inviting Mahidol University Thailand and Universiti Brunei Darussalam into the team.

The 2019 International Joint Symposium of the 8th Asia Pacific Pharmacy Education Network (APPEN) Conference and the 2nd Halal Pharmaceuticals and Cosmetics (HPC) Conference is the second joint conference initiated by the network. The first joint symposium was held in Japan and organized by Josai University and Josai International University in 2018. This year, the event will be held at 8-9 October 2019 in Surabaya, Indonesia and organized by Faculty of Pharmacy Universitas Airlangga in collaboration with Halal Center Universitas Airlangga.

Continuing the success of previous symposium, the 2019 International Joint Symposium strives towards enhancement of pharmacy education and recognition of halal pharmaceuticals and cosmetics. The current symposium offers opportunity for synergy among the network institutions and dissemination of best practice in pharmacy education and halal system recognition.
